Here's one from our wedding

*Award-winning and highly experienced husband and wife team photographing in a candid, natural and editorial style.*

We met six years ago with a simple swipe right on New Year's Day. Most people think we met through our love of photography - our eyes meeting across a dimly lit dark room or some other romantic cliché, but we actually found each other on Tinder! As we started chatting (and after little bit of facebook research) we soon found out we shared a love of dogs and photography.

Our first date was over a few drinks at The Old Bridge in Huntingdon, Cambridgeshire where we return every anniversary for dinner and drinks and to

reminisce about the night we met.

Things moved pretty quickly after that first date and it wasn't long before we were working and living together and in 2021 we got married - "When you know, you know"!

**OUR BACKGROUNDS...**

October has over 20 years experience in photography, creative design and publishing and over 10 years experience in wedding photography specifically. This extensive and rare experience is crucial to achieving first class results and is coupled with a real passion

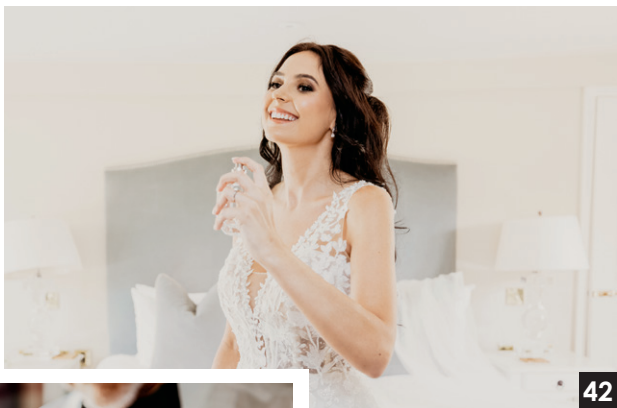

for photography.

James has been shooting weddings with October since 2018 before which he was a long term, award-winning amateur photographer and had a career in the music industry.

We really love working together, and constantly push each other's creativity!

# OUR STYLE

*How we photograph  
your special day*

We promise not to be the kind of intrusive photographers who turn your special day into a continuous photoshoot! Your wedding is about you and your guests, not us. Pictures that capture the day and your love in a natural way are always the most powerful. We take plenty of candid photographs and most of the time you won't be aware of us. Even our portrait sessions,

where we photograph just the two of you, are done in a relaxed manner so you'll have fun and feel at ease.

## **BRIDAL PREPARATION**

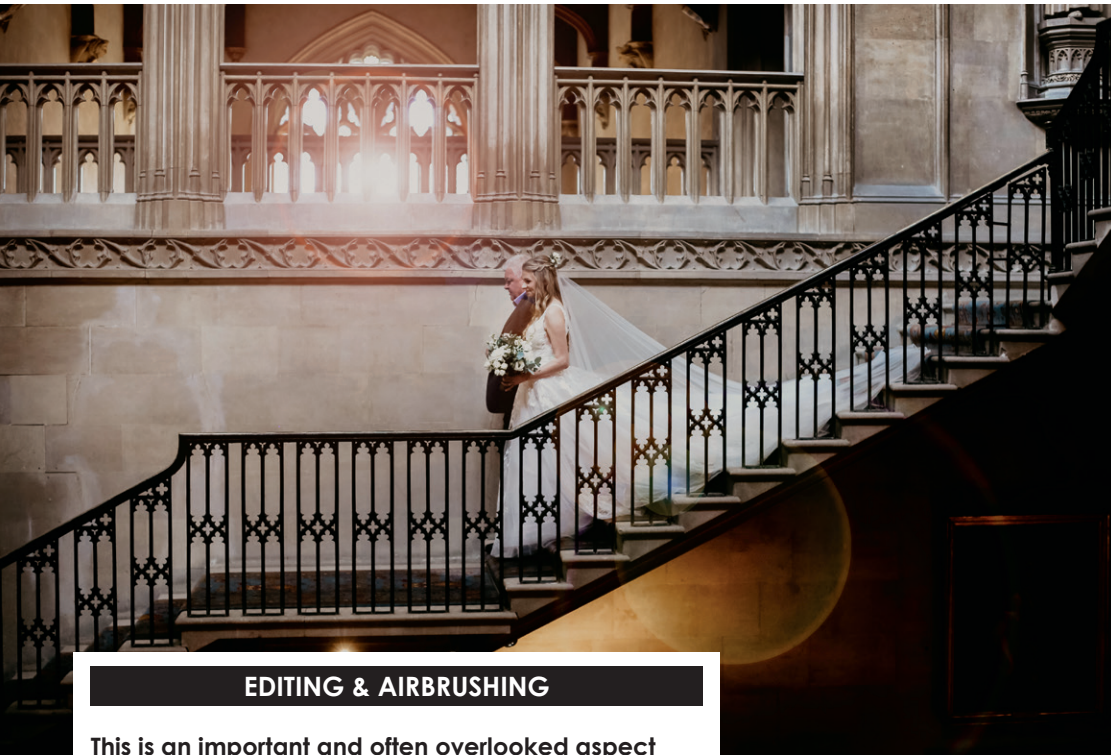

This is where the fun begins! October typically arrives 2 hours before the ceremony to capture the sense of excitement as well as all the details such as perfume, earrings, shoes etc. One of the best photos is getting a father's or

bridesmaids' reaction to seeing the bride in her dress for the first time.

## **GROOM PREPARATION**

These are essential photos in telling the story of the wedding and an aspect of the day the bride loves to look back on. James will be with the boys as they get ready shooting the cufflinks, ties, the quick drink to reduce the nerves and maybe a final run-through of the speech! >

### EDITING & AIRBRUSHING

This is an important and often overlooked aspect of photography. Every professional photographer should edit their photos, the competency with which this is done however, varies greatly. Every single photo we provide is individually edited, adjusting a wide range of parameters to give each one "our look". We have taken a considerable amount of time and called upon all our experience to create a unique editing process.

Additionally all your 'Sneak Peek' images are airbrushed which takes things to the next level. During this process we can remove anything distracting from the picture, maybe a rogue dust bin or signpost for example. Also, we can run custom-designed skin smoothing, teeth whitening and eye brightening processes to show you at your absolute best! It shouldn't be obvious that a photo has been airbrushed and this is what takes the skill - enhancing a photo without it looking like you have.

### GUESTS ARRIVING

With October capturing the final aspects of the girls getting ready, James will be at the church or venue shooting candid photos of your guests arriving.

### THE CEREMONY

The Bride and Father walking down the aisle, the Groom's reaction, exchanging of the rings and, of course, the kiss.....October and James will be discretely in place to record it all. >

### GROUPS & CANDIDS

While not everyone's favourite part of the day, group shots are a nice way of capturing you with your loved

ones. We have this section of the day well organised, make you all laugh and it won't take long. Also, while your guests are mingling during the drinks reception, we have the perfect opportunity to take many great candid photos.

### NEWLYWED PORTRAITS

This is the perfect time for the two of you to escape and have a moment of quiet. Most people can be a little

self-conscious in front of the camera but we promise to keep things light-hearted. We won't force you into awkward positions but instead capture beautiful moments of happiness and love. We often have more than one portrait session if, for example, there is a sunset later in the day which we think would make a stunning backdrop.

### THE ROOM & SPEECHES

Before the Wedding

Breakfast, we photograph the room and all the little details. No one looks good while they're eating so we'll leave you alone at that point but return for the speeches. As well as the person giving the speech, we'll capture the reactions of those listening - often these can be priceless!

### CUTTING THE CAKE

We'll set up a cake cutting shot with all your friends and family

counting down..... be sure to cut the bottom tier not the top otherwise it might topple over!

### FIRST DANCE

We have many different ways of capturing the first dance depending upon the venue and light. We can set up our own lighting, coordinate with confetti canons or even indoor fireworks.

### THE PARTY & BEYOND

We loiter around the dance floor to get the shots of you and your guests having fun before calling it a wrap.

### AFTER THE WEDDING

We'll have typically taken around 4000 photos during your day so the first thing for us to do is go through them

all, pick the best ones and reduce that number to about 700. From these we will pick around 30 of our absolute favourites each of which will be edited and airbrushed to create your "sneak peek". We will then edit all the rest of your photos before uploading them to your online, password protected gallery. These are all super-high resolution, watermark free and yours to download, share, print or post on social media, etc.

### ALBUMS & PRODUCTS

Once you've received your gallery you can select your favourite pictures from which our sister company can design and supply a range of wedding albums.

# BRIDAL beauty

*Kelly @ Coveted Beauty*

**I**t goes without saying that you want to look positively radiant on your big day so now is the time to start a beauty routine if you don't already have one.

#### **12 MONTHS TO GO!**

Seek professional advice from an Aesthetician when it comes to

skincare. They can guide you on what products will be beneficial for your skin after a consultation. Regular facials are a must as well as a good routine at home.

#### **6 MONTHS TO GO!**

By now you will have started to see the benefits of regular

skincare and you may be thinking about other treatments to help you glow! Prescription Retinol peels are a tried and tested way to renew dull skin.

#### **4 MONTHS TO GO!**

Book an appointment now for anti-wrinkle consultations for fine

## BRIDAL PREPARATIONS

lines or troublesome areas like crows feet or frown lines. This treatment should be performed 4-6 weeks before the wedding and may require a top up after two weeks.

Consider regular manicures, (every 2-3 weeks is advised), to keep your hands and nails in tip-top condition for the all important ring shot.

### 3 MONTHS TO GO!

Let's talk about Brows! We all know how important they are to frame your face so if you suffer with over plucked or sparse brows perhaps try Microblading. This is a form of semi-permanent make-up where feather like strokes of pigment are placed within the skin with a microblade to mimic brow hairs. Choosing the right artist is imperative to ensure you end up with the natural looking brows that you've always dreamed of. Now is the time to book a consultation as they take 4-6 weeks to heal and will require a touch-up at that point.

### 2 MONTHS TO GO!

If Microblading isn't for you, regular brow grooming, brow lamination or even brow henna may be your option. A trained brow stylist can advise you on what is right for you and work out the best treatment plan.

### 1 MONTH TO GO!

To help keep your skin glowing, Dermaplaning is an option. This can be performed as little as a few days before your wedding and will help with make-up application.

Who doesn't want gorgeous lashes on their wedding day? Photographers and make-up artists will advise you that sometimes bigger isn't always better in the case of lashes! Extensions of course add drama but be sure to try them out before the day to ensure they don't irritate your eyes. A more subtle way of enhancing your lashes is with a lash lift - elongating your own

lashes with tint from root to tip. The added benefit of lash lifts is that they will last long into your Honeymoon with no worries about getting them wet!

# GROOMED

*It's not all about the girls!*

When it comes to the morning of the wedding, most guys think they've got it easy - a quick shower, a bit of hair gel, chuck on the suit and you're ready to roll!

Not always! We hate to tell you how many grooms end up panicking because they can't find their cuff links, the bestman has no idea how to tie a bow tie and one of the groomsmen is ordering room service 5 mins before you're due to leave!

Don't panic, we're on hand to offer a bit advice to help you get organised. >

Whether you're having a tie, cravat or bow tie, it's a good idea to practise a day or two before the wedding.

Make sure all groomsmen check their suits and shirts fit correctly a few days ahead.

If you're staying at the venue the night before, double check you've got everything when you arrive and place your cufflinks, aftershave, watch and other small items

together in a safe place.

Buttonholes can be tricky, just remember to place them roughly in the middle of the left lapel, the top of the flowers touch the top edge of the lapel. To secure it, place the pin on the reverse side and push it through the fabric and stem in a downward diagonal motion. You may need to apply a bit pressure if the stalk is thick, but be careful not to bend the pin. ♡

# Alice & Adam

*Longstowe Hall provided a lovely setting for this summer wedding*

What an absolutely amazing day Alice and Adam enjoyed. Longstowe Hall near Cambridge was the perfect venue for our bride and groom's outdoor ceremony and, despite the threat of rain, the weather was very kind and the sun

shone brightly throughout. One the reasons our couple chose Longstowe was for the many different photo locations it has to offer and, with day having a very relaxed feel, we decided to take the newlyweds off periodically for little >

"bite-size" portrait sessions. This meant we weren't keeping them from their guests for too long but also ensured we captured all the romantic photos they really wanted - especially during "golden hour" with the beautiful, warm light. The day was full of surprises starting with the groom's dream car, a Mercedes AMG G-Wagon, turning up to

take him to the ceremony and ending with the couple heading off through a spectacular pyrotechnics tunnel. Alice and Adam were genuinely such a lovely couple and were smiling and laughing throughout the day, (despite our beautiful bride being in A&E needing stitches in her leg the evening before and still in some pain!). >

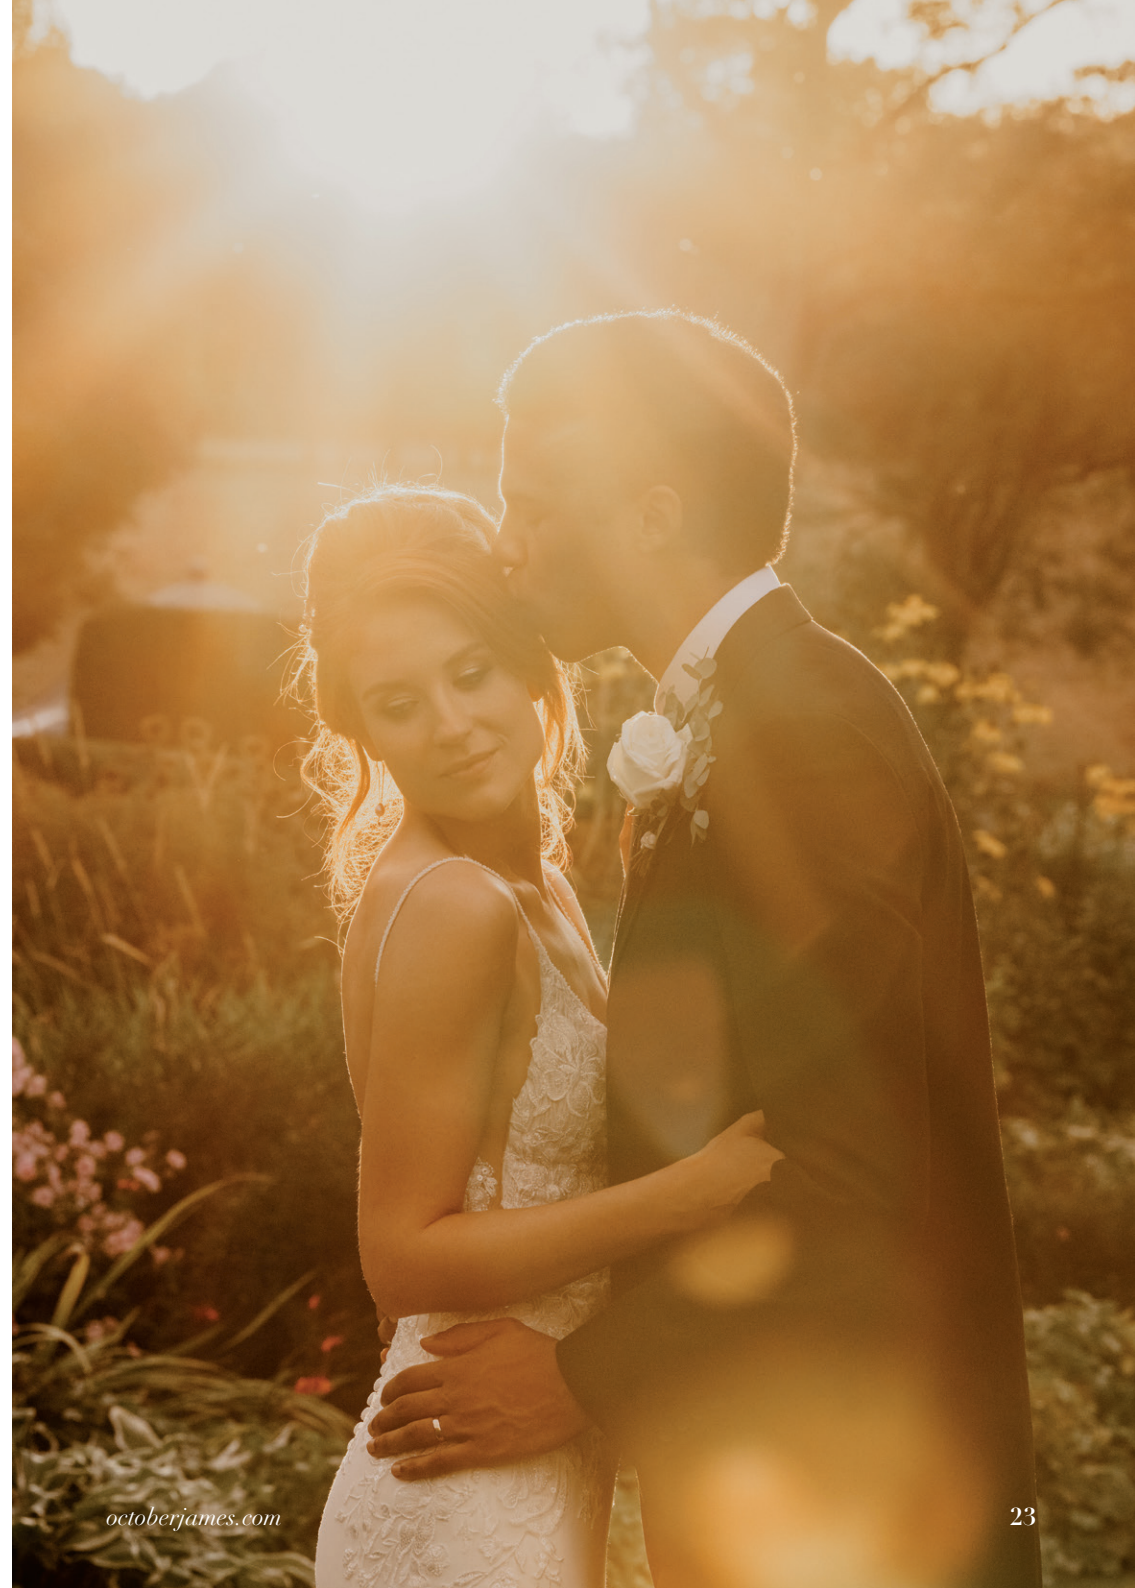

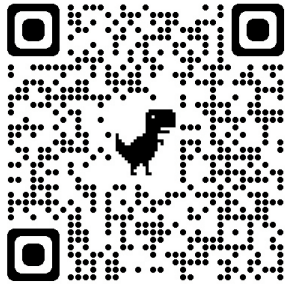

We always say we're so lucky with our job. Not only do we get to work together, (with minimal bickering, we promise!), we also get to be a small part of such happy occasions. Every wedding is so different and that always keeps us looking for new and creative ways to tell the story. ♥

# ALL YOU NEED IS *love*

*And a couple of awesome  
wedding photographers! (lol) >*

*"JUST WOW - WE LOVE ALL OUR PHOTOS -  
THEY'RE ABSOLUTELY AMAZING!  
Thank you very much"*

## Lauren & Ollie

Just wanted to say a huge thank you for being so incredible on our wedding day... I don't know what I'd have done without you guiding us through the day, as I'd never been to a wedding so had no idea what I was doing! But you were honestly perfect and the photos are amazing! Everyone has commented saying they should be in a magazine!!

### LAUREN'S MUM, ADDED..

Absolutely stunned by our daughter and son-in-law's wedding photos which October & James photographed last weekend. They were so discreet and professional and took shots without people realising which has given us some amazing photos to remember an amazing day. Would not hesitate in recommending them, they are just fantastic.

## Lucinda & Luke

We are overwhelmed with our photos - they are absolutely stunning, thank you, thank you! You've captured so many little memories we would have otherwise forgotten, honestly they're so beautiful

## Lorna & Jay

October and James are simply amazing! They took my wedding photos and I could not have asked for anything more. They are amazingly creative and have so much passion for what they do which really shows in all of their work.

On the wedding day October & James put us at ease and made us feel really comfortable in

front of the camera. They took on the responsibility of organising everyone for the group shots which meant I could just enjoy every second of my day. I feel that my wedding pictures speak for themselves in demonstrating their skills and talent as well as creating a really natural environment. I cannot recommend them highly enough!

## Abaigh & Toby

As someone who doesn't enjoy having photos taken, I was nervous about having a photographer at our wedding. We met October & James at a few wedding fairs and fell in love with their style and instantly felt comfortable with them. On our day, they went out of their way to make us feel happy and comfortable and brought so

much upbeat energy with them. They managed to capture incredibly special moments that we had no idea they even noticed (e.g., a fleeting moment between my dad and I just before walking down the aisle). The photos are not only absolutely stunning, they capture the very heart of our day. We are so glad we booked October & James.

## Lucy & James

Thank you so much for sharing our day with us and capturing such beautiful pictures! We really enjoyed your company and professionalism on the day and are delighted with the final pictures! We really enjoy going through the pics and will continue to love them over the years as something lovely to look back on!

## Emma & Dean

We would both like to thank you for our wedding photos. We are so happy with them - they are amazing. You both made us feel at ease on the day especially doing the portraits it all felt so natural. We would recommend you both to anyone we know getting married.

## Malachi & Isabella

We've just seen our sneak peek and we are blown away! They are beautiful!!!!

What a nice way to end our honeymoon and enjoy them before Christmas! Best early Christmas present! You both really managed to capture the moment and they're natural which is what we wanted.

We just want to say how amazing you were on the day! We felt at ease and relaxed throughout and when the situation changed you both quickly adapted!

We flipping love you both!

WE ARE  
*family*

*Our approach to photographing your loved ones*

Group photos can sometimes be a little challenging. Time old tradition has us standing there with fixed grins staring down the lens for what feels like an eternity. Our aim is make this experience as relaxed and pleasurable as we

possibly can. We engage with your guests, and encourage their participation. We want you to have fun and laugh - naturally!

The keys to success are preparation and team effort. We'll chat ahead of the wedding to discuss the most important groups and create a list. Our recommendation is no more than ten groups and these will take around 20 minutes to organise - many more than this and your guests will start to get bored and wander off! ♥

# Francesca & Nicholas

*This gorgeous couple had a DIY wedding at their family home in Suffolk*

This wonderful wedding took place around a beautiful, imposing farmhouse in Barham, Suffolk which has been in the groom's family for generations. Our groom, Nick, his bestman and groomsmen got ready at the home before they moved to a nearby pub for a splash of Dutch courage!

Bridal preparations took place nearby at Retreat East in Hemingstone. Francesca wore the most beautiful wedding dress - Monstera from Ukrainian designer Alena Leena. Each dress

is made bespoke but the breakout of the war meant Francesca's dress couldn't be completed. The designer however located a similar sample in the United States and shipped it to the UK for completion. The quality and design of this wedding dress was absolutely exceptional - one of the finest we've ever seen.

The wedding ceremony took place in St Peter's church in Barham, Suffolk which lies on the edge of the family farm and was packed with well-wishers. Beautiful floral displays and bouquets

were provided by Khloris of Needham Market.

After a long confetti-tunnel, the newlyweds departed in a magnificent Jaguar XK120 convertible. This stunning car had been painstakingly restored >

by a close family friend and almost got as much attention as the bride and groom! At the request of the couple, we included this fine vehicle in many of their portraits.

One of the farm's huge barns had been converted to hold the wedding breakfast and evening reception with delicious catering provided by My Kitchen, Your Place of Lavenham, Suffolk

The partying went on long into the night and we left feeling delighted and privileged to have photographed this very special wedding. ♥

# PLANNING YOUR *Winter Wedding*

*Everything you need to know when putting  
together your big day.*

**P**lanning a wedding is daunting enough but factor in light restrictions and unpredictable weather and things can get a whole lot trickier. Worry not! We are here to help.

The first thing to consider is your venue. Ideally choose somewhere that has beautiful interiors as well as exteriors. Always ask the venue what their wet weather plan is, for example: Where will your guests receive their welcome drinks? >

Is there a room big enough to accommodate group photos? Do you have access to the entire venue for bride and groom portraits?

Once you've picked the perfect location, the next big decision is what time to have the ceremony. Light is an important factor for outdoor photography and ideally you'll want at least 2 hours of daylight after the ceremony. We always carry our own lighting equipment however so

**we're ready for every eventuality.**

**We recommend that from the end of October through to March you opt for an earlier ceremony time of 1pm.**

**During our consultation we'll discuss all the photo opportunities your venue holds and how we can get creative with lighting both natural**

**and artificial.**

**Let's talk about the weather - it is the UK after all!**

**The one thing every bride dreads on her wedding day is rain. However, it's really not the end of the world - there's nothing more romantic than standing beneath an umbrella kissing the one you love. ♥**

# Chloë & Jack

*Holkham Hall is a dream venue with beautiful rooms & stunning views*

We love Holkham Hall in North Norfolk and it always feels special to photograph there. The grand hall, where wedding ceremonies are held, is truly one of the finest places in the country to get married and, having had their wedding postponed because of Covid,

Chloe and Jack's big day felt even more special.

The couple started the day getting ready at the Victoria Inn on the edge of the Holkham Estate (in separate rooms obviously!).

## REAL WEDDING

With the Sun beating down the guests arrived at the magnificent house and into the grand hall extensively built with marble.

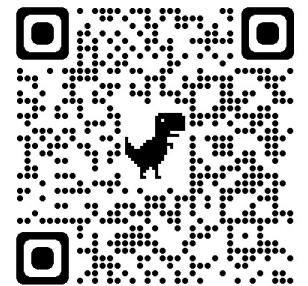

One of the advantages of having 2 professional and experienced photographers is that one of us can be at the back of the ceremony and one at the front. Never is this more important than at a venue like Holkham. One of us can capture the grandeur and scale of the room from the rear while the other is hidden at the front getting all the emotion and reactions from the bride and groom.

A few photos in some of the state rooms followed the ceremony before family photos on the stairs while the other guests headed to the Elizabeth Wing for outdoor canapés and drinks.

This was such a fun wedding typified by the great speeches expertly compered by the groom's father and after which the newlyweds did a photo dash - running from table to table to get crazy photos with every guest. ♥

# Cyra & Charlie

*Oxnead Hall is one of our favourite venues >*

As full-time Wedding Photographers we know the most popular wedding venues well and few are as impressive as Oxnead Hall, north of Norwich.

The impressive bridal suite is the perfect backdrop for the bride and bridesmaids to enjoy some pampering while the groom and groomsmen get ready in one of the garden cottages. Crya and the bridesmaids were all wearing PJs by The Nap Co, the beautiful wedding dress was made by Madi Lane Bridal and the headpiece was made by Vivi Embellish. The make-up was by Love

Moi and hair by Boho Beauty Box.

Oxnead Hall always looks stunning but never more so than when it is hosting an outdoor wedding. Cyra and Charlie opted for a spot on a little island surrounded by water for their ceremony and it was absolutely delightful. We've been lucky enough to photograph quite a few outdoor ceremonies at Oxnead and each one has been in a different location. The grounds are all so beautiful that couples have a choice of where to get married making each day unique and extra special.

After the ceremony, the happy couple and their guests enjoyed drinks and canapés by the orangery where we also organised the group shots they wanted. We always compile a group shot list before the day. We don't like taking up too

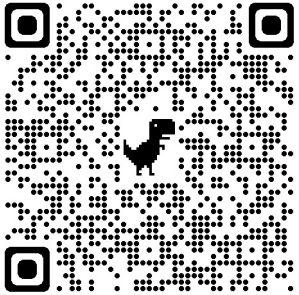

## REAL WEDDING

much of the wedding party's time with photos so we keep things fast-paced and fun.

The wedding breakfast and speeches followed and the food at Oxnead was as great as always. All the exceptional flower displays were created by Fox & Fern Florists and the venue styling was by Epic Event Hire. ♥

SCAN FOR MORE

The hues of soft pinks and oranges complimented the barn at Oxnead Hall beautifully. Cyra is Stylist for Harrords in London so she put her talents to good use styling her wedding.

[octoberjames.com](http://octoberjames.com)

# PERFECT TIMING

*When planning your wedding, getting the day to flow can be tricky. We're always at hand with help and advice.*

No two weddings are the same and this is one of the reasons our job is so interesting. There are however, some recommendations you may bare in mind when planning your day.

One of the most important things to consider, in our view, is not to have too long a gap between each aspect of the day. Assuming a ceremony time of around 2pm, a very rough guide is to allow 60 to 90 minutes between the end of the ceremony and the

wedding breakfast and then 60 minutes between the end of that and the cake cutting / first dance - this will take you to around 7:30. This keeps the wedding flowing well without long lulls between different parts of the day. We know from the experience of our own wedding that the day flies by and you don't want to wait too long for the evening partying to start! We are always at the end of the phone or an email to help with any aspect of planning your day. ♥

# & Roxy & Ben

*Pentney Abbey in Norfolk hosted this  
fabulously fun late summer wedding >*

We love Pentney Abbey in Norfolk and although we photograph lots of weddings there, we make sure we uniquely capture the spirit each special day. This was never more important than with Roxy and Ben's wedding which was full of laughter and fun including a crazy photo-dash between all the wedding breakfast tables with your dutiful photographers galloping around with them!

There were also many garden games which always makes for great >

*octoberjames.com*

# REAL WEDDING

photography when the guests' competitive edge kicks in!

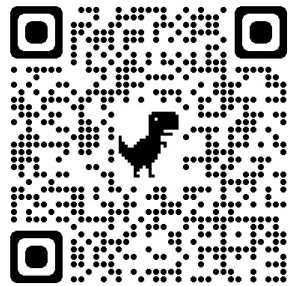

The day was expertly run by Pentney's wedding planner, Maddy and her team.

The groom's cousin, Jaime of WestWood Flowers, put on amazing

floral arrangements and styled the venue. EPIC Events produced the couple's "BOXY" lights and Roxy's hair and makeup was by Make Up by Sam. The evening partying was backed up by The Fleet, a great 3-piece band.

REAL WEDDING

# Alex & Mike

*An intimate gathering in Norwich City Centre*

This felt like an extremely special wedding for us. We had been chatting with Alex and Mike, our Bride and Groom, for many months before the wedding with ideas, recommendations and help planning their big day.

The couple got ready together, along with their family and friends, at a lovely farmhouse in the beautiful Norfolk countryside.

As is tradition in some countries, the couple had a 'first look' to each other in the morning which gave us the opportunity to capture some romantic photos before heading off to Norwich Castle for the marriage ceremony.

After stopping for a celebratory confetti photo on the way, the wedding party walked to the reception which was held in the private dining room at The Ivy >

*octoberjames.com*

Norwich Brasserie where everyone was treated to some exquisite food.

The newlyweds were so relaxed that the whole day just seemed to flow perfectly and we had plenty of time for a bit of street photography around Norwich before heading to the Plantation Gardens for a portrait session at this beautiful, unique location.

SCAN FOR MORE

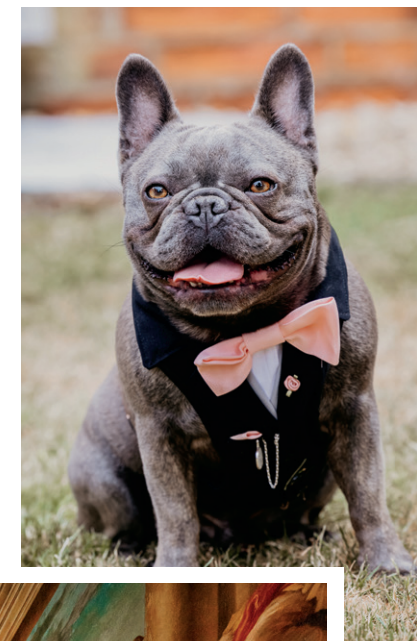

# Rianna & Andy

*Kimbolton Castle adds the  
wow factor to any wedding >*

Rianna and Andy had a truly spectacular wedding spread across two of the Cambridgeshire's most impressive and interesting venues.

The wedding ceremony itself took place in The Church of St Mary set within the grounds of Buckden Towers – an amazing series of buildings dating back before the Domesday Survey of 1086. Catherine of Aragon was a resident before being transferred

to Kimbolton Castle – the location for Rianna and Andy's wedding breakfast and reception.

The day started with our groom getting ready at home in Godmanchester while our bride was enjoying the lovely surroundings of The George Hotel in Buckden, a short walk from the church.

The church was packed with friends and family and even the couple's gorgeous little French Bulldog made an

appearance. After the ceremony the guests left for Kimbolton giving us a few moments to capture some portraits of the newlyweds around the Towers.

Once at Kimbolton we mingled discretely with the guests in the courtyard capturing candid photos of drinks and canapes being enjoyed before organising a few group photos of the couple's nearest and dearest.

The Castle offers such an amazing scope for portrait photos whether it's the grand pillared portico outside or the breath-taking and world-famous murals which decorate one of

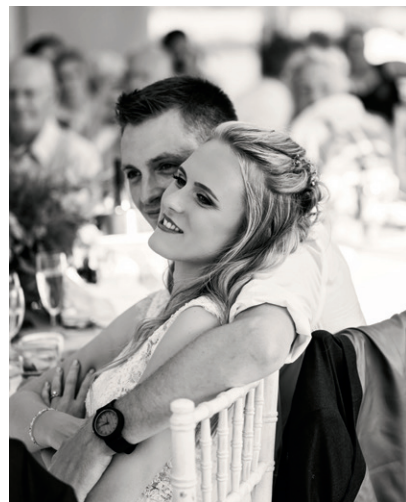

the staircases, painting by Giovanni Antonio Pellegrini in the early 1700s. After a sumptuous wedding breakfast, the happy couple and their guests partied the night away in the Saloon to finish off what was a wonderful wedding.

SCAN FOR MORE

# *candid* CAMERA

*Capturing those wonderful moments of spontaneity*

*octoberjames.com*

Candid or reportage style photography is all about capturing the vibe of your wedding in a totally natural way. We move around discretely shooting all the moments of real emotion from you and your guests. Be it tears of laughter from the bestman or tears of happiness from the father of the bride, these photographs are often the ones that bring the

*octoberjames.com*

biggest smiles. When we are out for the portrait sessions, we'll still be capturing candid photos of you walking with each other, chatting and taking in the day. Even when we do "set up" a shot, it's relaxed and we don't get you staring down the lens with a fixed fake smile meaning even these photos still have a natural and candid style to them. ♥

*These are a few of the common questions we're asked. Please get in touch if you have any others.*

**What's your style?**

Relaxed and natural with a good mix of candid and portraits with an editorial, story-telling edge.

**Are you a couple?**

Yes, we're newlyweds and have been shooting together ever since we met. We love working together and having both of us

means every element is covered and nothing is compromised.

**How does the day flow?**

Every wedding is different but, from a photographic point of view, most go like this: Bride and Groom prep; Guests Arriving; Ceremony; Confetti; Group Photos; Bride and Groom Portraits; Drinks

Reception; Wedding Breakfast Room and Details; Speeches; Cutting the Cake; First Dance; Party!

**How long do you stay?**

As general rule we usually start two hours before the ceremony and stay until about half an hour after the first dance. However, these aren't set in stone and we can adjust our timings once your ceremony and wedding breakfast times are confirmed.

**Can we book a consultation?**

Absolutely! You can contact us through our website or social media.

*octoberjames.com*

**How do we book you?**

Once you've decided to book, we'll email you the paperwork which can be filled in online. We'll also send you payment details for the booking fee.

**What happens after the wedding?**

We produce a "sneak peek" of our favourite photos very quickly with the rest following a few weeks later - we won't keep you waiting long!

**Do you shoot weddings abroad?**

We love to travel and us flying to your wedding might not be as expensive as you think.

*octoberjames.com*

**How long have you been professional?**

We've been shooting weddings since 2009. Previously to that October was in the magazine and creative industries and James in the music business.

**How many photos will we receive?**

You'll typically receive approx 700 individually edited images.

**We really aren't keen on having our picture taken.**

We rarely meet couples that are. Most of our coverage is reportage and we shoot in a very relaxed way so our couples feel at ease and actually have fun.

**Can we have an album?**

Most couples choose to and our sister company provides a range of products. The albums are of the finest quality with various sizes and cover options.

**Are you insured?**

Yes, we have full Public Liability insurance. ♥

# & Ali & Matt

*A quintessentially English wedding  
at Trinity Hall college in Cambridge*

The grandeur of Cambridge's colleges always feel special and offer the most wonderful settings for weddings. Our bride's father attended Trinity Hall and has had a close association with the college ever since, >

*octoberjames.com*

making it the perfect venue for the big day. The preparations started early with both the bride and groom getting ready in separate wings before coming together for a wonderful outdoor ceremony on the lawn in front of the river. No Cambridge wedding would be complete without enjoying a bit of punting and with the

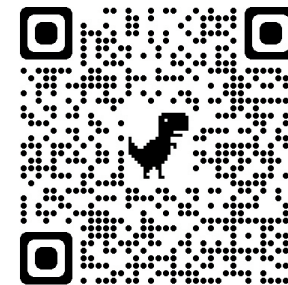

*octoberjames.com*

college having direct access to the river and its own mooring, both the newlyweds and their guests were able to make the most of this activity. The grand dining room hosted the wedding breakfast before all the guests moved to the college's own nightclub to party the night away and even witness a fantastic

*octoberjames.com*

cheerleader's routine by the bride and her troop!
